THIRTY ON TUESDAY.

That Number of New Yellow Fever
Cases and Two Deaths

SAYS CRESCENT CITY

By the First of Next Month Dr.
White Looks For Frost Over
Louisiana and Quarantine
Be Raised.

New Orleans, Oct. 4.—Up to 6 o'clock
Tuesday afternoon there were thirty
new cases and two deaths here, also
five new foci.

The report of thirty new cases is not
at all surprising, in the face of the low
record of the past few days, because
it is to be expected that some days
there will be sharp contrasts in the
figures. Only four of the new cases
are above Canal street. Algiers re-
ports three, among them a lady living
in McClellanville, previously reported
as suspicious, but whose death re-
moved all doubts of the nature of her
illness. The other death is that of R.
A. Arrington, the night chief operator
of the Postal Telegraph company.

The surgeon general has ordered an-
other of Dr. White's officers to Missis-
sippi to help out on the Gulf coast
where the situation is far from promis-
ing.

No cases were brought into the city
from the country, nor were any reported
by the marine hospital service from
the right bank of Jefferson parish, but
the situation in Willwood, where eleven
cases were discovered Monday, has
resulted in the establishment of an
emergency hospital there.

Grand Isle seems to have developed
quite a nest of infection following the
few sporadic cases reported from there
some time ago. Twenty-nine cases on
the island were reported Tuesday. This
place is under the direction of Dr. En-
gelbach.

The country reports were: Patterson,
five new cases.

Kenner, three new cases, one death.

Alexandria, two new cases.

Terre Bonne parish, seven new cases.

Having gone almost to the Texas
state line, Surgeon White of the ma-
rine hospital service returned gener-
ally pleased with the results of his trip
and expressing the opinion that quar-
antine over a large portion of the state
would be materially modified by the
middle of the present month, with the
likelihood that practically all of them
will be lifted by the first of November.

By Nov. 1, Dr. White expects that
there will be frost over a large portion
of the state and as secondary infection
cannot appear inside of two weeks,
there is reason why bars to personal
communication should not be removed
fifteen days before frost appears.

Vicksburg, Miss., reports eleven new
cases and Natchez, four; Gulfport, five;
Hamburg, three; Roxie, three; Port
Gibson, seven.

At Pensacola.

Pensacola, Fla., Oct. 4.—The official
summary of the fever Tuesday was as
follows: New cases, nine; deaths, four.

LICENSE REVOKED.

New York Life Given Two Weeks to
Wind Up Business.

Carson, Oct. 4.—State Controller and
Insurance Commissioner Davis revoked
the license of the New York Life In-
surance company in this state. The
following telegram was sent to the of-
fice in New York by the commissioner:
"John A. McCall: Pending the inves-
tigation of the corrupt management
and fraudulent disposals of funds en-
trusted to your company, and as long
as yourself and George W. Perkins re-
tain offices of trust in the management
of the New York Life Insurance com-
pany, the license to do business in the
state of Nevada is hereby revoked.
Upon advice of a change of manage-
ment and satisfactory proof of honest
management, the license will be re-
issued."

A notice has been forwarded through-
out the state giving the agents two
weeks to close the records.

SANCTION ASKED.

Attorney Wants to Bring Suit For the
Restitution of Funds.

New York, Oct. 4.—Permission to be-
gin suit against John A. McCall, pres-
ident and George W. Perkins, vice
president of the New York Life In-
surance company for the restitution of
\$150,000 contributed to Republican
campaign funds, was asked of Attor-
ney General Mayer by William Hep-
burn Russell, acting as attorney for
several policy holders. Under the
laws of this state the sanction of the
attorney general is required in order
to bring a suit of this character. Mr.
Russell said the suit would be based on
the contention that the money paid to
the National Republican committee was
expended by McCall and Perkins with-
out corporate authority. He declared
that he intended also to sue for the
restitution of \$235,000 which Mr. Mc-
Call testified had been placed in the
hands of Andrew Hamilton of Albany.

Lake Charles, La., Oct. 4.—Julian
Baptiste and Chester Lynton, negroes,
were lodged in jail charged with the
murder of Simon Levene at a negro
dance near Welsh. The testimony at
the coroner's inquest showed that Bap-
tiste fired the fatal shot, but that Lyn-
ton also did some of the shooting.

ELIOT TO FRESHMEN.

Head of Harvard Gives Advice to
New Collegians.

AVOID ALL EXCESSES

"Act Toward All Women as Though
You Were Going to Marry Some
Pure Woman Inside of a
Month," Says He.

Cambridge, Mass., Oct. 4.—President
Charles W. Eliot of Harvard addressed
the incoming freshman class at the
faculty reception. He said in part:

"The foundation of all durable satis-
faction in life is that each man be a
clean, wholesome, vigorous animal.
This means that drunkenness, licen-
tiousness and dirt of all kinds must be
avoided.

"But this is not enough. It is the in-
tellectual life that gives the educated
man, the real man, the real satisfaction
that endures. The cultivation of vig-
orous intense mental work, each day is
bound to furnish one of the greatest
and most lasting satisfactions that
come in life. Don't take three minutes
to do what might just as well be done
in two minutes. Don't take four years
in college to do what might be done
just as well in three years.

"The third great source of satisfac-
tion is a decent reputation. In order to
secure this, be a man of honor. Act
toward all women as though you were
going to marry some pure woman in-
side of a month. Be honest to all, and
more than this, be generous, especial-
ly to those less poorer than yourself.

ARE ENCOURAGED.

Disposition to Raise Quarantine De-
lights New Orleans Business Men.

men the most encouraging feature of
the yellow fever situation is the dispo-
sition that is being manifested by par-
ishes and towns in Louisiana to raise
quarantines about Oct. 15, in harmony
with the suggestion of Dr. White and
President Souther. If the rule is gen-
erally followed New Orleans will re-
cover more quickly in a business way
than in 1897 and 1898, when the mos-
quito theory, being unknown, the out-
side country refused to remove re-
strictions until frost came. Iberville,
Terrebonne, Kentwood and Acadia
sent word they would probably dis-
pense with their quarantines about the
time suggested, while Baton Rouge
now has the matter under considera-
tion. Health Officer Dupre and Surgeon
Corpus both having made it plain to
the citizens that there will be practi-
cally no danger in resumption of rela-
tions with this city. The pace having
been set it is probable many more par-
ishes will follow suit, and by the time
of the president's arrival practically
all bars will be down. There is great
eagerness among country people to
come here and participate in the jubile-
e that will attend the president's
visit.

One of the chief features of the pres-
ident's reception here was to have been
a banquet, at which representative citi-
zens of Louisiana were to have gath-
ered and the president afforded an op-
portunity to speak freely. Advances
from Washington announce the pro-
gramme arranged contemplates only a
daylight visit, the chief executive ar-
riving at 9 o'clock in the forenoon and
going aboard his cruiser at 6 o'clock
in the evening. An effort will be
made to persuade him to extend his
stay in order that he may attend a
banquet.

Wednesday was another day of
gloomy weather with light showers,
but the fever situation has lost what-
ever alarming features it may have
possessed. For the fifth day there was
not a single case reported from the
originally infected region and for sev-
eral days no deaths in the emergency
hospital, while cases under treatment
there dropped to thirty-eight and nearly
all patients are doing well. Above
Canal street old cases are recovering
more numerous than new ones are
being reported, and it is expected that
within a few days there will be little
if any fever in that section. Except for
the development of a considerable
number of cases at Grand Isle, in the
Gulf of Mexico, and at Willwood
plantation, in Jefferson parish, the
country situation is full of hope.

The Louisiana state university is an-
nounced to open on Nov. 1. Various
departments of Tulane university will
open about the same time. Public
schools in many parts of Louisiana are
already in operation.

Superintendent Eason of the New
Orleans schools has issued an order
that each of the 600 teachers employed
give brief talks daily to children on
the mosquito theory. There is to be
printed cards for each pupil to study
and later illustrated lectures for the
little ones.

Nine new cases of yellow fever and
two deaths is report up to noon Wed-
nesday.

Privy Council of Japan Took This Ac-
tion on Wednesday.

Tokio, Oct. 4.—After a prolonged
session, lasting all Wednesday morn-
ing and into the afternoon, the privy
council passed the peace treaty.

THE MARKETS.

Kansas City Cattle and Hogs.

Special to the Bryan Eagle.

Kansas City, Mo., Oct. 2.—Quarantine receipts last week aggregated 8000 cattle and 1500 calves, about like the previous week. Steers declined 10 to 15 cents, cows sold lower middle of the week, but recovered the loss, veals were scarce and steady, but heavier calves declined 50 cents, in addition to other heavy losses recently. Run today is better, at 3000 head, market steady on steers and calves, cows strong and active. Best cows lately sold at \$2.65, most of the cows \$2.30 to \$2.55, canners \$2.25 downwards, best light veals last week \$5.65, heavy calves \$3.00 to \$4.00. The medium weight grass steers now sell around \$3.00, top grassers last week \$3.25, a train of Osage steers, 950 pounds, today at \$3.10, light weight and common steers downwards to \$2.25. Some short red Oklahoma steers sold in quarantine division last week at \$4.15 to \$4.45. The outlook today is for steady to strong prices this week as there is a good demand from all sources.

Hog prices made a small net loss last week, but market has settled down apparently, steady today, and practically the same as two weeks ago, top \$5.40, bulk of sales \$5.25 to \$5.35. Receipts last week 36,000, run today 7000, which is some heavier than they have been running, quality is better, and range of sales narrower. Weights below 200 pounds sell at \$5.00 to \$5.30.

L. S. Correspondent.

DYNAMITE EXPLODES.

Man Has Both Legs Broken and Other Persons Are Injured.

El Paso, Oct. 4.—One man was fatally injured, three others were seriously injured and several were slightly injured in an explosion that occurred in the wholesale and retail El Paso Hardware company, when workmen removing a show case struck a box of dynamite caps with a crowbar.

Fatally injured: Major Sweeten, driver for a transfer company; both legs broken and internal injuries.

Seriously injured: Stefano Penas, laborer, struck on the head; Morcedonio Marquez, laborer, struck on the head by flying debris; Alamedo Martinez, injured about the body.

Hardware was blown through the roof into the second story, causing great damage there as well. The front of the store was blown out. Roomers in an adjacent building were shocked by the explosion. Five or six persons in the store were fortunately in the extreme rear when the accident occurred, escaping with slight injuries.

STILL IN PURSUIT.

White Boy Claims to Have Seen Gibson in Devil's Pocket.

Edna, Tex., Oct. 4.—Up to midnight Tuesday the hunt for Monk Gibson was still on. A boy sent word he had seen the fugitive Tuesday in the Devil's Pocket on Sandy creek.

Soldiers still guarded the jail Tuesday night.

Jim Chinn was put in jail. He married the aunt of Monk Gibson, and was probably arrested on suspicion. It seems that the sheriff arrested him upon request from the posse.

An inquiry came from Ohio wanting to know if there had been a conflict between citizens and soldiers in which fifty men had been killed.

No Request For Soldiers.

Austin, Oct. 4.—It transpires that neither the sheriff nor the county judge asked for troops to be sent to Edna, but that the governor sent General Hulen and the guardsmen on his own motion. He was afraid of violence being done the innocent family of Monk Gibson, now in jail at Edna, or a burning if Gibson was caught.

TO SELL DIAMONDS.

Those of Mrs. Chadwick Will Be Auctioned Off at Cleveland.

Cleveland, O., Oct. 4.—Judge Taylor, of the United States district court issued an order directing United States Marshal Chandler to sell at public auction the diamonds of Mrs. Cassie L. Chadwick, which were seized by the customs authorities because of non-payment of duty. Altogether the collector of customs seized nearly \$75,000 worth of Mrs. Chadwick's jewels. Those remaining in the hands of the authorities are valued at approximately \$10,000. Many of the stones have never been set.

The Little Details

SCHLOSS BROS. & CO.
Finer Clothes Makers
BALTIMORE NEW YORK

TEN yards of cloth and a mile of thread isn't the whole story of a good suit---not by several thousand stitches.

It takes tailoring brains, in plenty and mighty clever craftsmanship to make clothes in the right way---the SCHLOSS way.

Further than this, the looks and life of the suit depend more on the *little* details than you could imagine. For instance, simply the placing of the buttons and the shape of the lapel have everything to do with the final appearance of a coat, while such a trifle as the proper moulding of a curve makes all the difference between a beautiful garment and a mealsack.

If you could take an X-Ray glance at the interior of a Schloss coat you'd find the same careful attention to details as you see outside. Linings, stays and paddings---the framework of the structure---are made to wear, not merely to sell.

The result of all this care is a finished garment that looks and *is* extraordinarily good. It fits that way too, and wears that way as a matter of course. An occasional pressing makes it keep that "new look" indefinitely.

We handle the Schloss line because we know there's none better and never found any as good. We have all the new styles and shapes, of course, in the most desirable colors and patterns.

Some of our Suits and Top Coats cost \$12; others \$15 and \$20.

INSIDE INFORMATION.

Eagle Readers Chance for Profit—Every one Ought to Grasp this Opportunity.

To have even a simple case of indigestion is to have "inside information" of suffering that warns of serious trouble in the future, unless the digestive system is strengthened.

If you cannot eat and digest three good, square and satisfying meals each day without discomfort, your stomach needs Mi-o-na tablets. They are not a mere temporary relief, but are composed of valuable medicinal agents which strengthen the digestive organs, and cure and prevent stomach troubles.

When there are pains or distress after eating, head aches, belching of gasses, a sour taste in the mouth, dizziness, heart burn, specks before the eyes, furred tongue, sleeplessness, nervousness or back ache, the stomach needs the help of Mi-o-na.

Every reader of the Eagle should grasp the opportunity offered by E. J. Jenkins to try Mi-o-na at his risk. Just one little tablet out of a 50 cent box of this remedy before each meal for a few days, and you will soon have a strong stomach and perfect health.

Ask E. J. Jenkins to show you the guarantee under which he sells Mi-o-na. This valuable remedy costs you nothing unless it restores health.

McCALL ON STAND.
**President of the New York Life Insur-
ance Company Testifies.**
New York, Oct. 4.—John A. McCall,
president of the New York Life Insur-
ance company, was again called to
testify before the special legislative
committee investigating life insurance
companies in this state when the ses-
sions of the committee were resumed
Wednesday.
McCall, in speaking of legislative
experience of his company, said that
three-quarters of the bills on insurance
legislation introduced into various
states were blackmailing bills. During
his testimony, in answer to a question
by Mr. McKeen, McCall denied that the
New York Life Insurance company
discriminated against American sol-
diers in the Spanish war. It was al-
leged recently that the company at the
outbreak of the war made more liberal
terms with Spanish policy holders who
might serve soldiers than it did with
Americans in similar commissions.

NUMBER INJURED.
**Serious Accident Occurs on a Curve in
West Virginia.**
Connellsville, Pa., Oct. 4.—Fifteen
persons were injured, five of
them seriously, in the wreck of train
No. 1, Fairmont express, on the Balti-
more and Ohio railroad at Round Bot-
tom, near Morgantown, W. Va. Three
coaches, including the baggage car,
ladies' coach and Pullman chair car,
left the rails on a curve and tumbled
over the bank to the edge of the Mon-
ongahela river. Grant Burns of Haz-
lewood, Pa., conductor of the train,
has a broken arm and bruised and cut.
James D. Ellenberger and son, C. W.
Ellenberger, both of Dunbar, Pa.,
bridge carpenters, are among the most
seriously injured.

RATHER BE ROCKEFELLER.
Prefers Him to Any Crew, Saints or
Sinners, Attacking John D.
Chicago, Oct. 4.—"I would rather be
John D. Rockefeller to-day, divested of
his wealth and with his lovable per-
sonality, than any crew, saints or sin-
ners, who are attacking him."

The foregoing is a quotation from
an interview published from Dr. D. K.
Pearsons, a Chicago millionaire, na-
tionally known as a philanthropist.
"Talk of tainted money," continued
Mr. Pearsons, "is to the popular mind,
excited just now by socialistic out-
cries that there is no wealth that is
untainted. This cry of 'tainted money'
is no jest. It is unfair and not Ameri-
can. It has become the rallying cry
of the Socialist, the drone and discon-
tent member of society who hates
those whose talents or wealth exceed
his own."

Mr. Pearsons, after talking in this
strain with vigor for some time, showed
a recent letter which he received
from Mr. Rockefeller. Divested of per-
sonalities it concluded: "I thank you
for your kind words, good friend; I ap-
preciate them. Life is short and you
and I have too much to do in this
world to be diverted from our purpose
to try and make things better. Let us
keep right on and do our best in our
day and generation, rejoicing in the
beautiful sentiment expressed by our
lamented Lincoln, 'with malice toward
none and charity for all.' Sincerely
your friend,
"JOHN D. ROCKEFELLER."

HAD NO HELP.
**Harry Leonard Is Believed to Be Alone
Responsible.**
New York, Oct. 4.—The detectives
and the police have satisfied them-
selves that Harry Leonard, the boy
who did the National City bank out
of \$359,380 worth of securities by
means of a forged check, had no ac-
complices. They announced that all
the evidence to convict young Leonard
had been obtained and that the case
was closed.
In court Leonard seemed eager to
talk concerning himself, but the police
would not let him. Once the reporters
surrounded him successfully and he
go, launched in the story before the
police shut him up.
"I have been making a study of
banking methods," he began, "ever
since I've been down in the street. A
month ago I wrote an article for a
Wall street publication showing up the
carelessness of the messenger service
down there. I like the article so well
that I decided to demonstrate the thing
and make a name for myself."
At this point he was interrupted by
officers.

SELF ARRIVES.
Governor of German Samoa Is En
Route to the Fatherland.
San Francisco, Oct. 4.—Dr. W. S.
Solf, governor of German Samoa, ar-
rived here from Pago Pago on the
steamer Somona en route to Germany.
He says the Matautu volcano, which
burst into about two months ago, is
still in eruption. He was at the scene
of the volcano about a month ago and
the lava then covered about one square
mile and formed a mountain 500 feet
high. On his former visit, two months
ago, the hill was only about 300 feet
in height, and in his opinion the topog-
raphy of the island will be entirely
changed. There is an eruption at
least once a day, and at night the
fountain of fire can be seen seventy
miles away.
Conditions in Samoa are satisfac-
tory, according to Governor Solf, and
extra large crops of copra are expected
during the coming season. Most
friendly relations he says exist be-
tween the three governments of Ger-
many, United States and Great Brit-
tain, controlling the affairs of the
group.

The president will visit Fort Logan
H. Roots, a United States post, near
the city. The board of trade will ten-

other members of the party returning
